O R D E R

On August 14, 1985, Levee Road Water Association, Inc., ("Levee Road") filed its Motion to reopen Case No. 9212, wherein it had sought Commission approval for certain construction of new plant facilities, proposed plan of financing and proposed rates.

The Commission entered an Order on August 8, 1985, to dismiss the case without prejudice because Levee Road had not submitted, and could not submit, sufficient documentation to support its case within the statutory 10-month time frame allowed the Commission to decide rate cases. The Commission did allow Levee Road to refile when it had completed its advertising and project bid tabulations. Evidence in the record indicated this was the only outstanding documentation necessary in order to submit the case to the Commission for final determination.

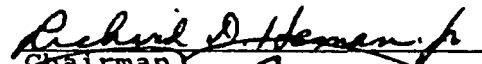

The Commission FINDS that Levee Road has now completed its advertising and bid tabulations and that its Motion should be allowed except that instead of reopening Case No. 9212, a new case should be established and the entire record of Case No. 9212 should be incorporated therein by reference.

IT IS THEREFORE ORDERED that Levee Road's Motion filed on August 14, 1985, be and it hereby is accepted for filing and that this case is established to consider the merits of the proposal.

IT IS FURTHER ORDERED that the entire record in Case No. 9212 be and it hereby is incorporated herein by reference.

Done at Frankfort, Kentucky, this 30th day of August, 1985.
